

## RAINFOREST RESOURCES INC. ANNOUNCES THE PURCHASE OF A DRONE.

Miami Florida -- (OTC Markets) – November 15, 2018 – Rainforest Resources Inc., Inc. ("RRIF") today announced through its subsidiary Rain Forest Enterprises SA, that the Company has purchased from Latitude Aerospace Solutions (LAS) a state of the art Drone model VTOL, that when fitted with remote sensors can detect the effect of greenhouse gases in a given area and provide data on CO2 and Oxygen levels, important information used in the computation for the issuance of **Verified Emission Reductions (VERs) / Certified Emission Reductions (CERs)**.

The Drone is also used for;

- **Topography:** Large extensions, measurements, contour lines, leveling, etc.
- **Cadaster:** being a comprehensive land recording of the real estate or real property's metes-and-bounds of a country. Such surveys often require detailed investigation of the history of land use, legal accounts, and other documents, urban and rural.
- **Environmental Studies: Environmental** baselines, impact studies, mining, oil tankers, dams, afforestation and reforestation, etc.
- **Inspection and Surveillance:** Detection of areas of interest with infrared sensors, patrolling of roads and property boundaries,

The initial use of the Drone will be in the evaluation of the Companies rain forest properties in Ecuador to produce Verified Carbon Credit Certificates. Thereafter it is the Companies intention to provide the Drone services to other entities involved the ecological preservation of the rainforests in Ecuador on a cost-plus basis, providing addition income to the Company.
